

FINAL PROJECT PRESENTATION

SHARON JEPKOSGEI

INTRODUCTION

- Female Genital Mutilation (FGM) affects at least 200 million women and girls in 31 countries worldwide.
- 21% Kenya girls aged 15 to 49

In Kenya, 21 per cent of women and girls, aged 15–49, have undergone some form of FGM

Less than 20% 20 - 39 40 - 59% 60% and more

PROBLEM

- About three years ago, we started an initiative to help victims of Female Genital Mutilation (FGM).
- Since its inception, our program has grown significantly, and we are now faced with the challenge of efficiently placing girls in different centers and homes.
- For instance, girls are constantly being moved to different locations to accommodate their needs.

MY PROJECT

The "**EmpowerHer**" Placement tool:

- For my project, I want to create a program to calculate and rank the best-matched placement centers for FGM survivors
- Based on weighted characteristics that encompass both the services offered by the centers and the unique needs of each girl.
